

**Rennes
Bretagne Atlantique
research center**

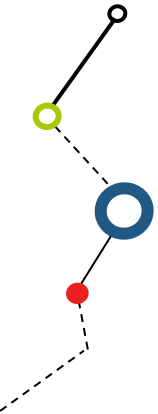

Figures

680 people

44 nationalities

33 research teams and **8** units dedicated to research support

More than **150** current industrial partnerships

Scientific priorities for our research center

Lines of research focused on scientific challenges to meet the needs of society such as **the Future Internet, health, environment and transportation.**

Three priorities :

-  Images and multimodal data
-  Reliable, secure and efficient software
-  Large scale distributed systems

Partnerships with

Research

Higher education and research clusters

Competitiveness Cluster

Europe & international

- **32 FP7 and 4 Eureka projects**

 - 4 ERC (European Research Council) grants

 - 3 project coordinations

- **KIC ICT Lab**

- **International : 16 associated teams**

Transfer & innovation

- More than 150 current contracts
- Our industrial partners

...

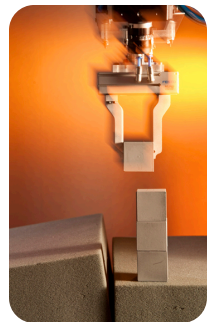

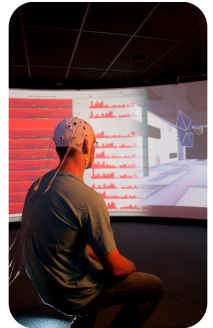

- Start-up

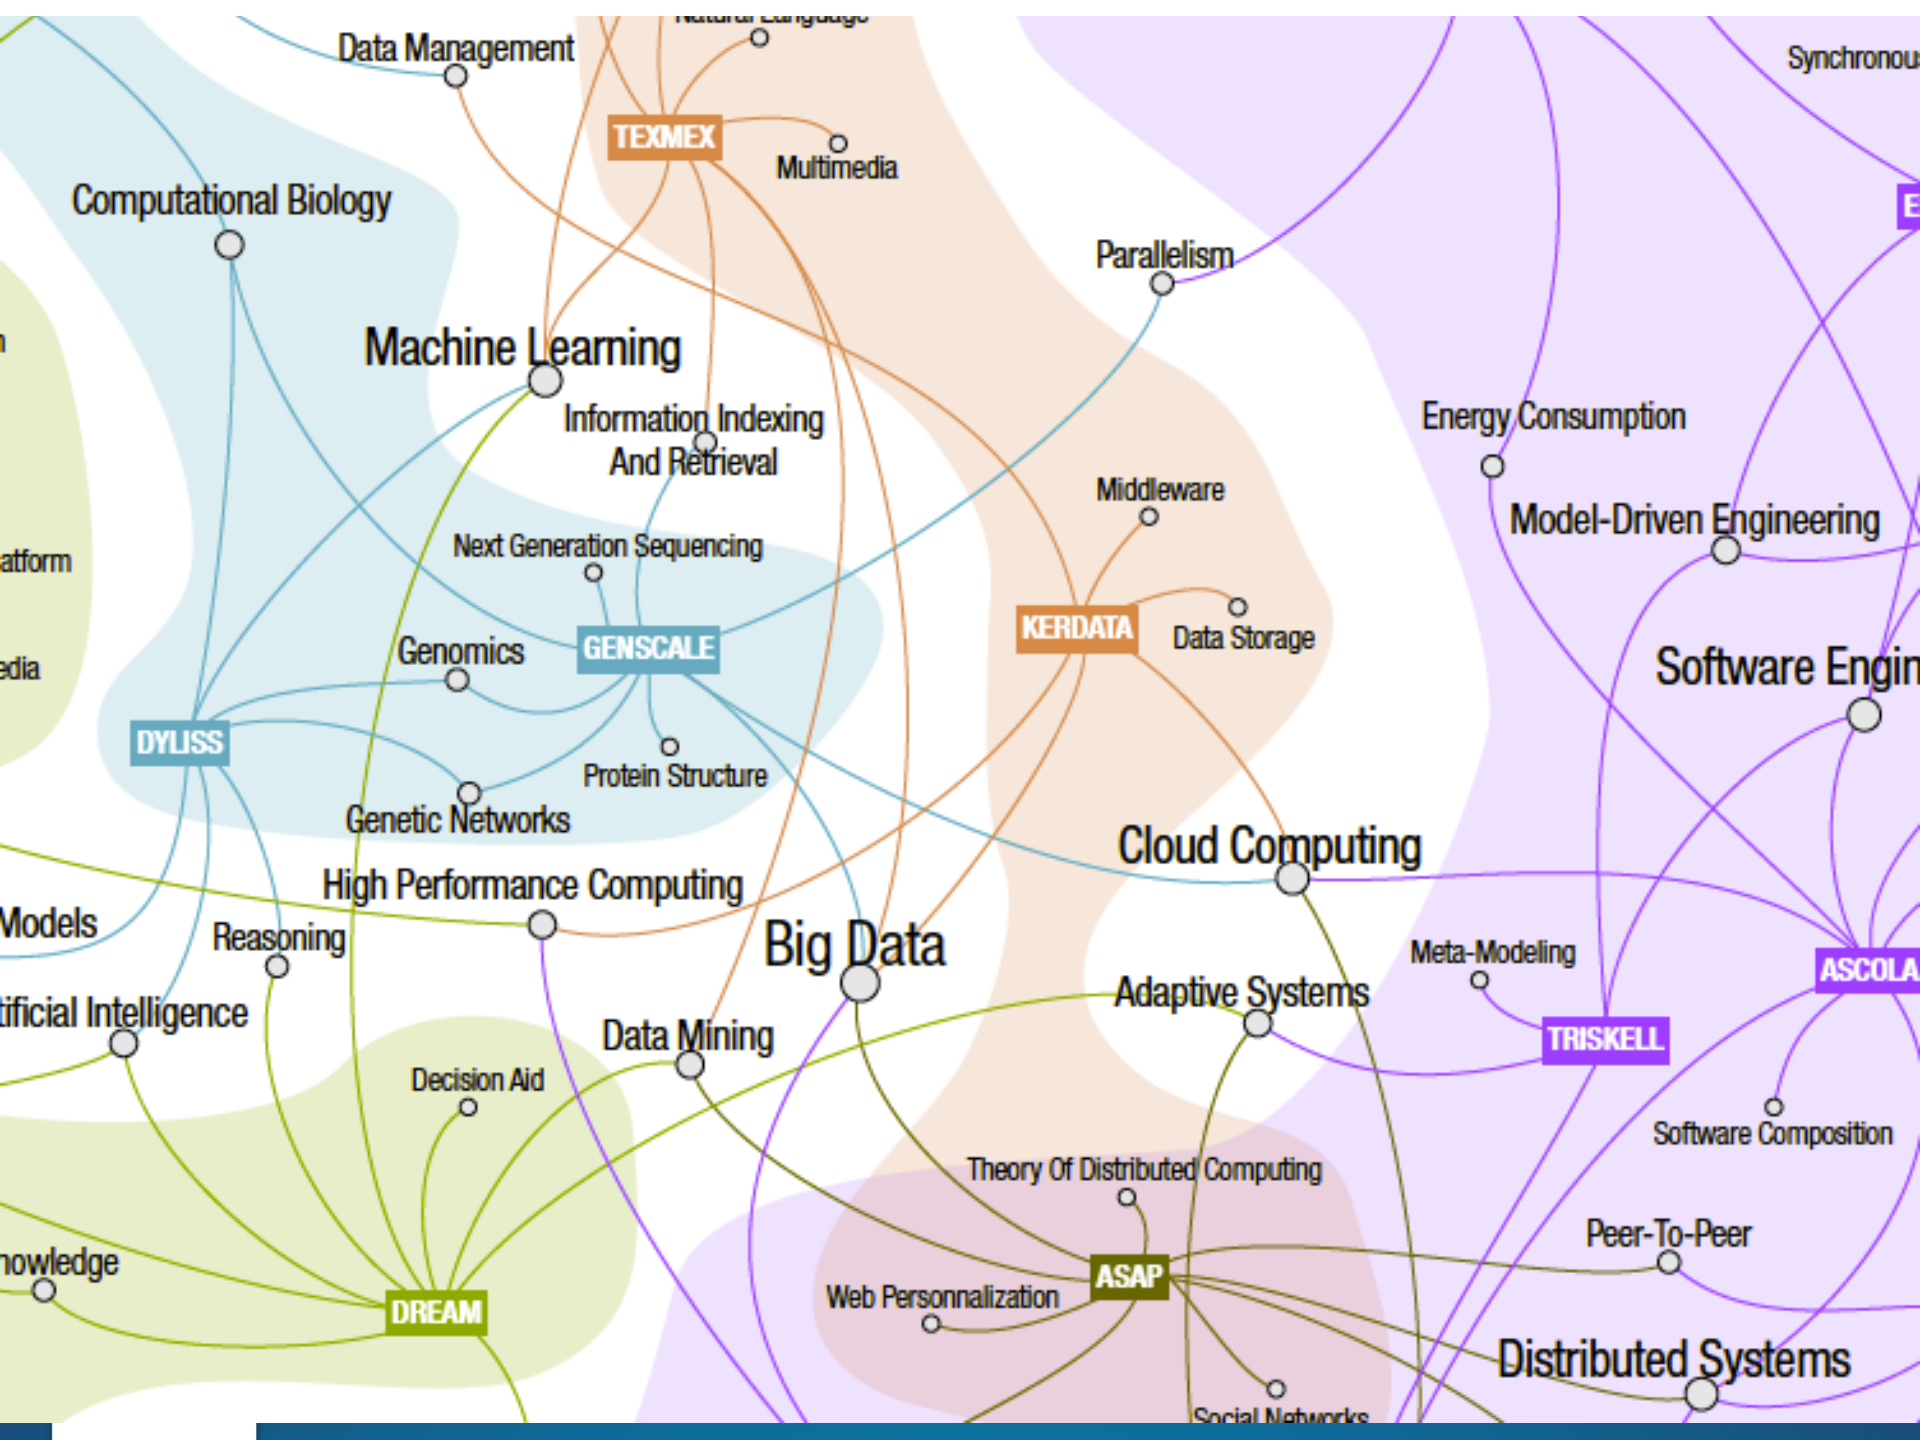

- Experimentation technology platforms

HPC/Grids/Cloud/ Bioinfo/Neurosciences

Multimedia / Robotics/ **Virtual Reality**
