CSND Hosting Security Office Hours for Illinois K-12 Teachers

This event has already occurred. The *video* ***has been posted to YouTube.***

The Cybersecurity and Networking Division (CSND) at the National Center for Supercomputing Applications (NCSA), a department of the University of Illinois at Urbana-Champaign, is hosting virtual office hours for Illinois K-12 teachers next **Wednesday, April 22nd from 3pm - 5pm Central time**.

The session will cover various cybersecurity topics, from protecting yourself from spearfishing, scams, and malware; to password hygiene, especially while working remotely during the pandemic. Office hours will begin with a slideshow presentation from NCSA security staff, followed by a question and answer session over chat.

If you are not able to join the presentation at 3pm, you are welcome to hop in later to ask questions, or view the recording afterwards.

PDF copy of the slides

Presentations are recorded and include time for questions with the audience.

For questions about the presentation, or security in general, contact help+security@ncsa.illinois.edu.
