## Globus Online Home

Welcome to the NCSA Globus Online resource space. NCSA hosts a subscription to Globus Online that is usable by any unit at the Urbana Campus. Currently, we are limiting access to Urbana Campus units in order so as not to overwhelm available NCSA support resources. If you are interested in contributing resources to support the service, please contact Christopher Heller (cheller@illinois.edu) or Sean Stevens (sstevens@illinois.edu)

To report a problem or request assistance with GO please send email to help+globus@ncsa.illinois.edu or open a ticket in the GLBS project in the NCSA Jira (/projects/GLBS/summary).

## Support Documents

- Access AWS S3 through NCSA S3 Globus Endpoint
- Access NCSA Google Drive @illinois through Globus
- Create an AWS S3 Collection on NCSA S3 Endpoint
- Create Google Drive Collection on NCSA Google Drive @illinois
- Globus at Illinois FAQ
- Globus Connect Personal Installation
- Globus v4 Installation Documentation
- Globus v5 Installation Documentation

Illinois Institutions/Departments Currently Leveraging Globus

- NCSA (National Center for Supercomputing Applications)
- Illinois Campus Cluster Program (ICCP)
- Beckman Institute
- Carl R. Woese Institute for Genomic Biology (IGB)
