

# Installing Horovod

1) Install the deep learning framework you intend to use Horovod with e.g. pip3 install tensorflow

2) Run the command

```
scl enable devtoolset-9 bash
```

3) Install Horovod with the correct bindings for your framework (these can be found at: [https://horovod.readthedocs.io/en/stable/install\\_include.html](https://horovod.readthedocs.io/en/stable/install_include.html)) e.g.

```
HOROVOD_WITH_TENSORFLOW=1 pip install horovod[tensorflow]
```
